Delete Diagram　　　　　**Save Diagram**

- A section on the admin panel to add diagrams, which will be saved in the back-end to be displayed on the front-end
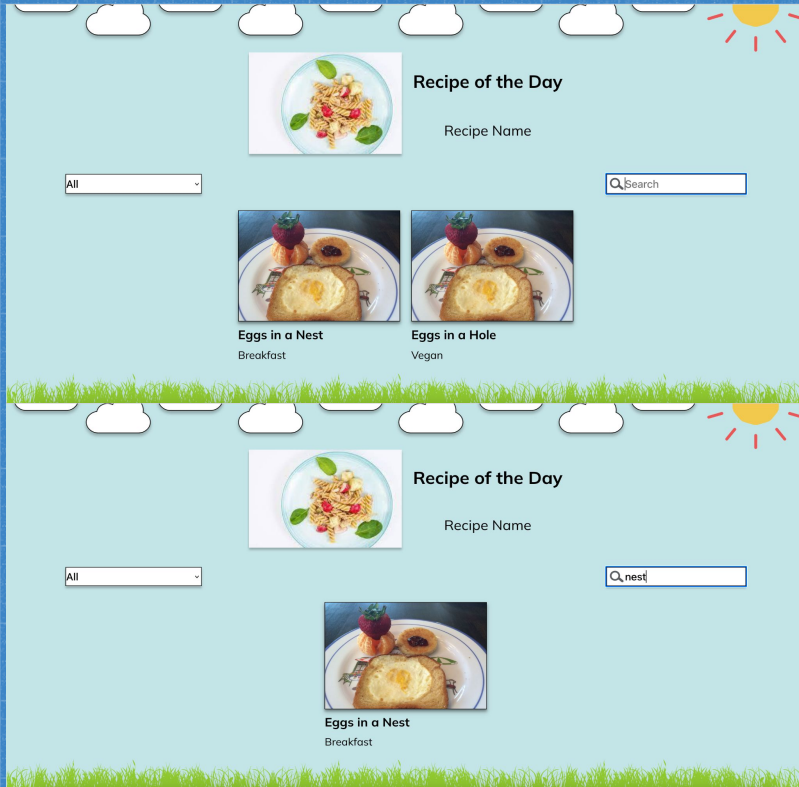

Pagination / See more
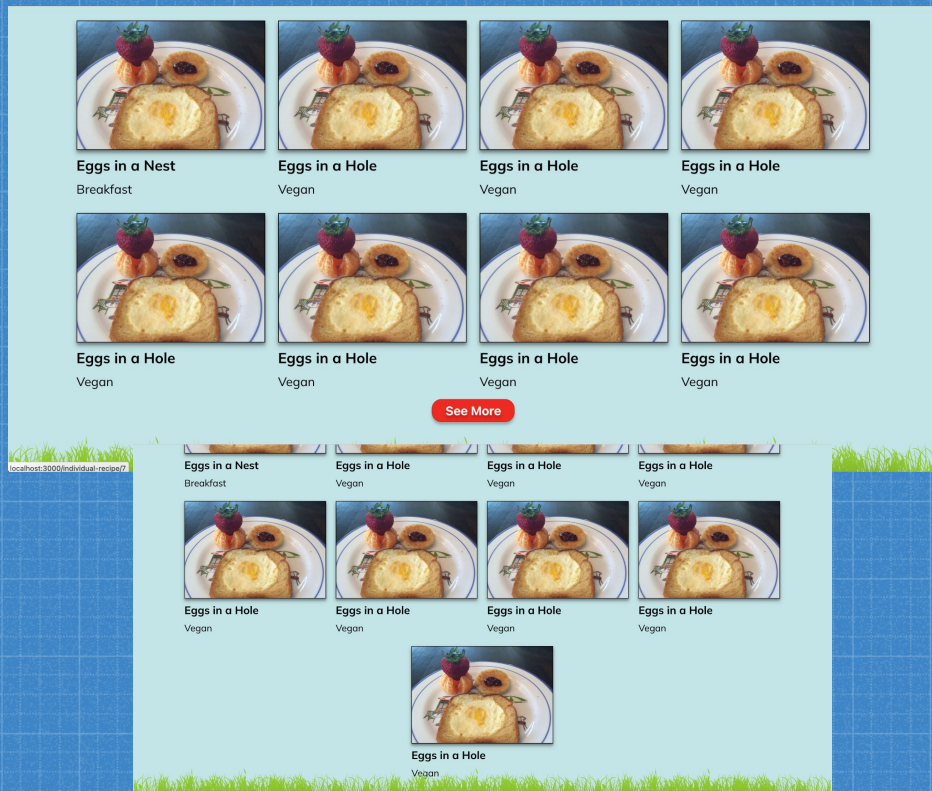

- A button that will show up when a grid content pulling from the database has more than eight items, which will load more items when clicked

Filter by category
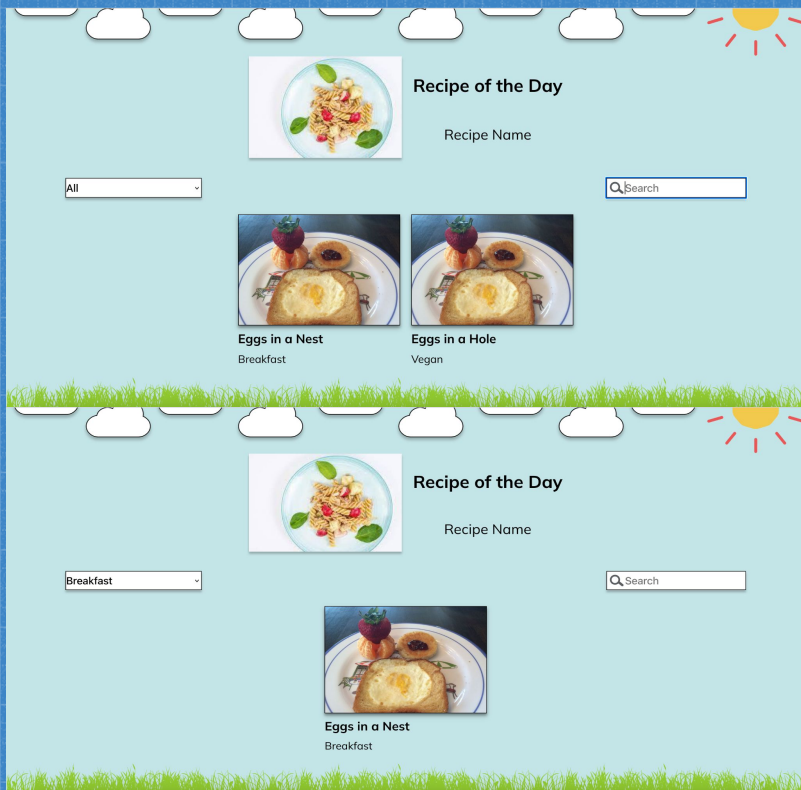

- Drop-down menus that allow filtering exercises and recipes by their associated specific category

Search

- A search box that will filter down items pulled from the database as it is typed in, allowing users to dial in on the exact thing they want

Exercise log form submission

- A form for the exercise log page which will create a new exercise log object in the backend, associate it with a family member, and create a new family member if the specified family member doesn't exist yet
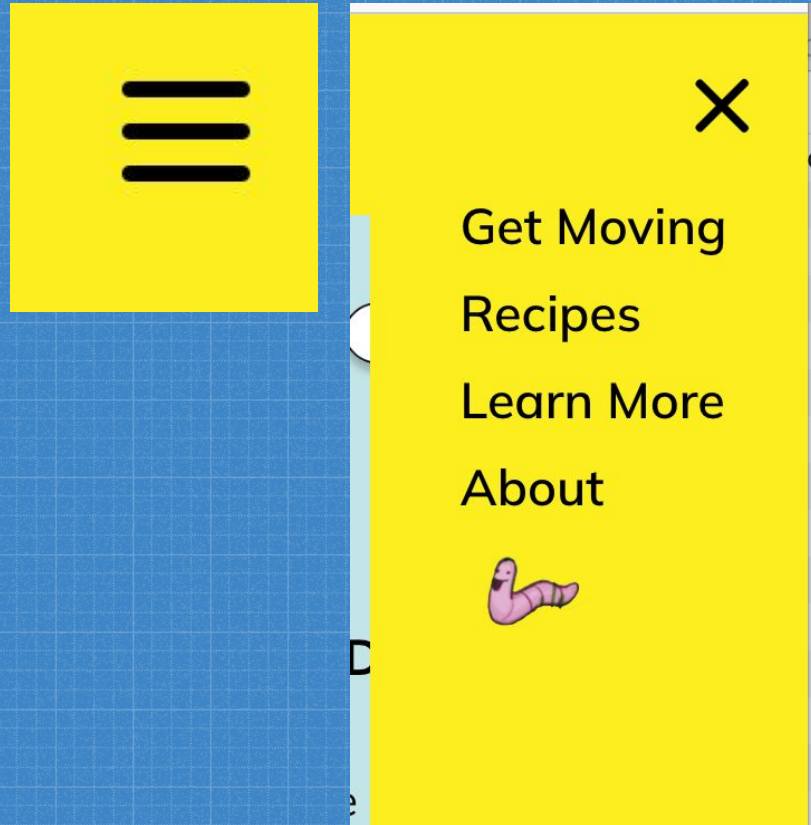

Calendar / All Logs page

- A calendar page with selectable days which will display logged exercise in totals for each family member during the selected day
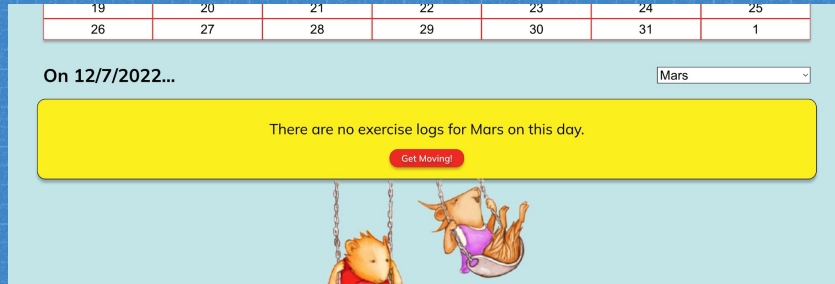

On-hover drop-down menu

- A button in the header that when hovered on, will display a drop-down menu with more options to navigate to different pages
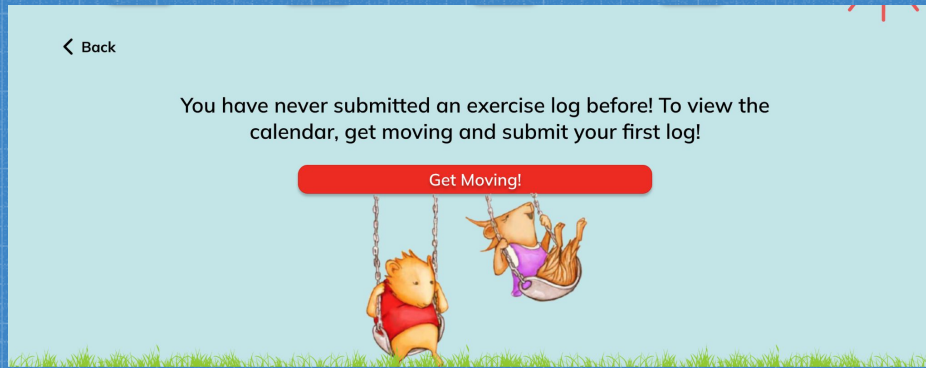

Hamburger menu

- A button shown on smaller displays that expands out the header buttons to be more accessible to mobile users on smaller displays

No Logs Message

- A message displays if there are no logs to display for that specific day and family member. The Get Moving Button redirects the user to the exercise log form.

No Logs/Family Members Message

- A message is displayed if the user has never submitted a log before (and thus has no family members associated with their account). The "Get Moving" Button redirects the user to the exercise log form.
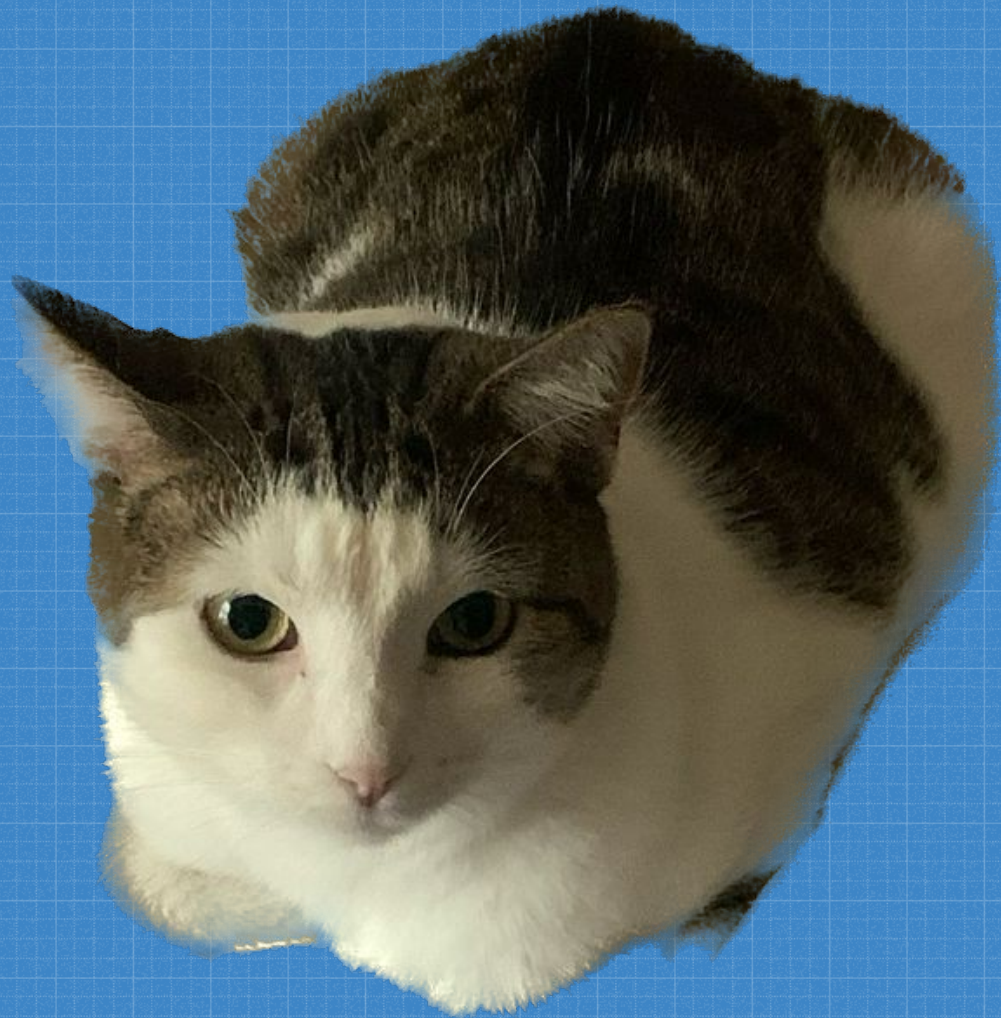

This is Kiri's Roommate's Cat
His name is Gatio
I love him
